## FRANK WHALEN SENT TO PETERSBURG

## "CAVALIER'S DEATH" IS ANNOUNCED

Wanted There on Charge of Taking Overcoats—Here, Too. Police Court.

Mr. Montague Decides to Discontinue Publication of His Magazine.

Frank Whalen, with several aliases, the young man arrested by Detectives Wren and Wiltshire for Chief Ragland, of Petersburg, on four charges, was up in the Police Court yesterday and turned over to Petersburg.

Before he left for the southside he was identified as the young man who registered at the Lexington Hotel and took French leave and him in Petersburg for three overcoats and a board bill.

After they are through with him in Petersburg he will be entertained again by Justice John.

A colored driver named John Trower was assessed \$10 for beating Tarry to Police Court and Wiley. He took license and sleighing and then took things in his own hands.

Dodson Coles got six months as an overcoat thief, and Justice John warned everybody to keep their hall doors locked. Andy Bray paid \$2.50 for being disorderly and three days in jail.

"An old, sick is somewhat excusable for tanking up such weather," said Justice John.

## FARMERS' INSTITUTE. The One Held at Fredericksburg a Decided Success.

Commissioner Kolner has returned from Fredericksburg, where on Thursday he and President J. H. C. Beverley, of the Board of Agriculture, held a most instructive farmers' institute. Notwithstanding the heavy snowfall, the court-house in which the institute was held was crowded, and though the flakes continued to flurry through the entire day, no one left the building until the last lecturer had finished, though many of the farmers had to drive twenty miles or more to reach their homes. Stafford, Caroline and Spotsylvania counties were represented in the gathering.

The institute was presided over by President Beverley, and the board from the First District. The lecturers, besides Commissioner Kolner, who spoke on the subject of fertilizers and soil improvements, were Professors Waite and Spillman, from the United States Department, and Professor S. B. Helges, manager of the State Farm at Saxa. Commissioner Kolner next began a series of institutes to be held in Piedmont, Northern Virginia and the Valley.

**To License Gypsies.** The House Committee on Finance yesterday reported favorably the bill offered by Dr. R. S. Powell, of Brunswick, to license gypsies and other strolling companies, and to fix the license tax at \$50 per year. The bill will likely provoke some discussion.

**For the Plaintiff.** In the Law and Equity Court yesterday, in the matter of Sallie Victoria Allen vs. Richmond Passenger and Power Company, the jury brought in a verdict for \$150 for the plaintiff. The case consumed about two days in its trial.

**Only One Charter.** The Corporation Commission has chartered the Harry Marks Clothing Company (Incorporated), Richmond, Harry Marks president; capital stock \$25,000, to \$50,000.

**Old Ball Player.** Mr. Louis Giesbrecht has received a letter from Pete Woodruff, a well known old Richmond base-ball player. He is now located in New York, and says he will play with the well known team to be re-membered by his old friends.

Mr. Jeffrey Montague has announced to the subscribers and other patrons of "The Cavalier" that he has decided to discontinue permanently the publication of that magazine.

The following paragraphs are taken from the letter which Mr. Montague is sending out to friends of the enterprise: "In retiring from the office of editor, I am leaving the Cavalier in the hands of a stranger, in my original belief in the greatness of the opportunity which awaits a first-rate magazine published in the South. The Cavalier had made itself almost wholly self-supporting as a weekly on a very little money, but it did not have enough with which to expand into the monthly field, and it could not get any more because the minds of possible investors were haunted by the death agonies of its numerous predecessors, and they would not let themselves believe that The Cavalier could be made to pay."

"Indeed, the death of The Cavalier is due entirely to the fact that everybody (generally speaking), subscribers and advertisers, stood aloof watching just to see whether it would live or die before they would extend to it their life-giving patronage. Of course, it died—a sad story in a land of plenty. The next man to go into the business must be prepared to survive this probation."

**These bills were offered and referred:** By Mr. Hobbs: To amend the law to fix one or more days for collecting levies in each county. By Mr. Machen: To amend the law in relation to corporations so that companies chartered in the District of Columbia or other government reservation, the bill merely adds the District of Columbia to the list of which the company under its charter may be formed. Three days' leave of absence was granted to Mr. Ford, of Loudoun.

## New Normal School.

**It Is Dangerous to Neglect a Cold.** How often you hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that this cold, however slight, should not be disregarded. It always cures and is pleasant to take. For sale by all druggists.

## WORK OF THE LAWMAKERS

Senate Passes an Emergency Bill Curing Defects in the General Tax Act.

## FOR HEAT AND LIGHT PLANT

The Anderson Bill Therefor Favorably Reported—Other Measures Considered.

The sessions of the two branches of the General Assembly yesterday were not productive of substantial results. Indeed, much of the work of the law-makers is yet in committees, and daily important measures are being discussed therein.

The Senate sat for only half an hour. A bill amending the general tax bill, to cure certain errors due to misprints in the bill as passed, were taken up and passed by a majority of 12. The bill passed as an emergency act. The bill made appropriations to aid Confederate memorial associations in caring for cemeteries was passed by.

In the House the insurance bill was recommitted. Mr. Edmondson made an elaborate exposition of the provisions of the general road bill, but further consideration of the measure was passed by the Senate.

Lieutenant-Governor Willard called the Senate to order at noon. There was no minister on hand, hence prayer had to be dispensed with.

Among the measures reported from committee was the Anderson bill, carrying an appropriation of \$25,000 for the erection of a plant for heating, lighting and furnishing power for the Capitol, Library building and Governor's Mansion. It is proposed to erect such a plant on the Square east of the Capitol. The bill was favorably reported by the Finance Committee. The adoption of the plan proposed will not only reduce the expense of lighting and heating and operating the elevators, but will diminish the danger from fire.

The Senate took up and passed an emergency bill a measure offered by Mr. Wickham and designed to cure certain errors made in printing the bill amending the general tax bill. The numbers were so mixed in designating the sections of the general tax bill and amendments thereto to cause confusion and to amend sections 75 and 76 of the bill, to be amended, and to leave unamended certain sections which should be and were intended to be changed. The bill offered by Mr. Wickham supersedes sections 75 to 100 of the general tax bill, and cures all the printer's errors. The bill was passed.

The House bill on the calendar on its third reading, to amend the law in relation to money to aid Confederate memorial associations, was passed by until to-day. There is a well founded report that the bill will encounter serious opposition to-day.

The Senate bill on its first reading to amend the law in relation to property in perpetuity for the maintenance or care of cemeteries, was introduced.

**BILLS INTRODUCED.** By Mr. Hobbs: To amend the law to fix one or more days for collecting levies in each county.

By Mr. Machen: To amend the law in relation to corporations so that companies chartered in the District of Columbia or other government reservation, the bill merely adds the District of Columbia to the list of which the company under its charter may be formed.

Three days' leave of absence was granted to Mr. Ford, of Loudoun.

## The House.

The House was called to order by Speaker Ryan, and prayer was offered by Rev. T. T. McFadden, of the Presbyterian Church.

Mr. Baker offered a resolution providing for filling vacancies on the Penitentiary Building Committee which may have occurred by reason of death or resignation, and was agreed to.

On motion of Mr. Jordan, the Baylor survey bill was committed to the committee for Courts of Justice in order to have certain constitutional questions looked into.

**INSURANCE MEASURE.** On motion of Mr. Hunley, the general insurance bill was recommitted to the Committee of General Laws, and Mr. Edmondson was recognized to speak for his general road bill, but he yielded, in order to have the measure read at length.

Mr. Edmondson made quite an extended argument in favor of his bill, after which a large number of amendments were offered. The patron explained his bill in a most intelligent manner, and closed with an eloquent appeal to the House for its endorsement.

The peroration of Mr. Edmondson was especially eloquent, and when he concluded he was loudly cheered, and the House adjourned.

**BILLS INTRODUCED.** The following bills were offered and referred: By Mr. Hobbs: To amend the law in relation to levies. By Mr. Dickinson: To authorize the supervisor of Spotsylvania to pay bounties on scalp of hawks, owls and foxes.

By Mr. Daniel: To require railroad companies to provide passenger drop steps on all cars.

By Mr. Gravelly: To amend the pension laws so as to make clear the intention of the act with reference to former ones.

By Mr. Edmondson: To amend the law in relation to the collection of the fees of the constables of the several counties.

By Mr. Wood: To provide a tax upon coal, iron and other mineral products within the State.

**BILLS PASSED.** To amend and re-enact section 63 of the Code of Virginia, as amended by an act approved March 3, 1903; as further amended by an act approved January 24, 1904; as further amended by an act approved March 15, 1903, in relation to the collection of the fees of the constables of the several counties.

To amend and re-enact section 161 of the Code of Virginia, in relation to land books of commissioners of the revenue in the several counties and cities in the State.

To amend and re-enact section 61 of the Code of Virginia, in relation to land books of commissioners of the revenue in the several counties and cities in the State.

Many Suits and Judgments in That Tribunal.

W. L. DOUGLAS AT THE BENCH 1867. I PAIR HAND MADE SHOES PER DAY.

PRESENT FACTORY CAPACITY 10,240 PAIRS PER DAY.

W. L. DOUGLAS \$3.50 SHOES WORTH \$5.00.

AMERICA LEADS THE SHOE FASHIONS OF THE WORLD. The leading styles originate in Brooklyn, the manufacturing centre of men's fine shoes in this country.

Styles Originated by My Expert Model Maker Are Copied Everywhere. W. L. Douglas \$3.50 shoes have by their excellent style, easy fitting, and superior wearing qualities, achieved the largest sale of any \$3.50 shoe in the world. They are just as good as those that cost \$5 to \$7—the only difference is the price.

If I could take you into my factory at Brooklyn, Mass., the largest in the world under one roof making men's fine shoes, and show you the infinite care with which every pair of Douglas shoes is made, you would realize why W. L. Douglas \$3.50 shoes are the best shoes produced anywhere.

If I could show you the difference between the shoes made in my factory and the shoes of other makes, you would understand why Douglas \$3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other \$3.50 shoe on the market to-day.

There is a great difference between wholesale and retail prices in shoes. You pay only one profit on shoes made in my factory and sold direct to you through my own stores in the principal cities. The result is, you get better shoes for the price than are obtained elsewhere.

My Own Secret Process of Tanning the Bottom Soles produces more flexible and longer-wearing leather than any other process.

## THE CITY'S POOR ARE SUFFERING

The Citizens' Relief Association Needs Money and Supplies at Once—Piteous Cries Heard.

The snow has brought great suffering to the poor of Richmond. The destitute and aged, with fear, almost amounting to horror. It makes them even more helpless than before. Ragged, feet may be kept dry, with the ground dry beneath and the sun shining overhead, no matter if the temperature be low. But old shoes, such as the poor have, count for little in the slush on the streets at present, and odds and ends of fuel are buried beneath the cruel, though "beautiful snow."

The Citizens' Relief Association, which so often has stood bravely between the poor of Richmond and starvation and the suffering, but it can't do it completely unless the generous-hearted people of Richmond come to the rescue at once.

The association needs money, clothing, provisions, fuel at once—to-day. Contributions of every nature made to Mr. E. Stewart, of the Citizens' Relief Association, Mr. Henry Lee Valentine or Mr. Robert A. Lancaster, Jr., will be applied immediately where most needed.

## AS TO COMMISSIONERS.

Move on Foot to Have Them Named by the Courts.

It is expected that in a short while a bill will be offered in the General Assembly providing for the appointment of commissioners of the revenue by the courts, though at this time it is not certain who will be its patron. It will be recalled that the Constitution leaves to the legislature the matter of providing for the selection of these officers, but prescribes that in the event of their election by the people they shall not be eligible to succeed themselves. If appointed by the courts, there is no limit to the number of terms they may serve. It is argued in favor of the appointment of commissioners by the courts, that it is unlikely to name improper persons to these responsible places, and that it was the conviction and wish of the convention that they would be the better one, though the mode was not prescribed, mainly because at that time there was so much talk about taking power out of the hands of the people.

## FIRTH SUIT DISMISSED.

At Request of Mrs. Firth All Proceedings Are Stopped.

What promised to be a most sensational divorce suit in the Chancery Court of Richmond was dismissed by Judge Grinnam yesterday, on motion of the plaintiff, Mrs. Mary A. Firth, who had instituted proceedings against her husband, R. E. Firth, alleging that he had left the city with another woman.

In the order dismissing all the proceedings in the matter is an item of \$100 to be paid Mrs. Firth, which is the result of some division of funds which were held by the court pending the suit.

It is not known what was the cause of the dismissal of the suit, though it is thought that some satisfactory agreement was reached between the parties out of court.

## Sunday Last Day.
